When I Get Time.

When I get time I'm going to write
A poem great and fine;
I'll pour my very heart and soul
Into its every line.
It shall be called my masterpiece,
By it I'll stand or fall;
And in the ages yet to come
It will be praised by all.

I've studied deep of human life,
I've sought the ways of men,
And all because I want to draw
Them with my sharpened pen.
I want to sway the plastic world
By thoughts and words sublime;
And try to make it better, too,
And will, when I get time.

Alas! The years have come and gone,
And each succeeding day
Has added cares already wrought,
And time has slipped away.
The masterpiece I vainly would write
I fear will be by rhyme;
Because the more of years I live
The less I have of time.

My Corns Don't Hurt a Bit.

Tired, Ailing, Swollen, Smelly, Sweaty
Feet, Corns, Callouses and Bunions,
TIZ Cures Right Off.

Say good-bye to your corns the very
first time you use TIZ. You will never
know you have a corn, blun or callous,
or sweaty, tired, swollen, aching feet
any more. It's just wonderful the way
the pain vanishes. Rub the corn—ham-
mer it with your fist if you wish—no
more pain after TIZ than if there had
never been a blemish on your feet.
Doesn't that sound good to you? Doesn't
it? Then read this:

"The corns on either of my toes were
as large as the tablets you make to cure
them. To-day there is no sign of corns
either foot and no soreness. It's an
up-to-date godsend—Sam. A. Hoover,
Providence, N. C."

Just use TIZ. It's not like anything
else for the purpose you ever heard of.
It's the only foot remedy ever made
which acts on the principle of drawing
out all the poisonous exudations which
cause sore feet. Powders and other rem-
edies merely clog up the pores. TIZ
cleans them out and keeps them clean.
It works right off. You will feel better
the very first time it's used. Use it a
week and you can forget you ever had
sore feet. There is nothing on earth
that can compare with it. TIZ is for
sale at all druggists, 25 cents per box;
or direct, if you wish, from Walter Lu-
ther Dodge & Co., Chicago, Ill.

WIFE HIS MAIN COMFORT.

Cheered Wilson In All His Troubles
and Met Him at Prison Doors.

Philadelphia, Pa., Nov. 25.—Released
from the Eastern penitentiary after a
sentence of 3½ years for forgery, re-
arrested as he started to walk away
with his wife, held for requisition pa-
pers charged after his wife had tele-
graphed \$300 to the Iowa city, and
the charge against him there of passing
a fraudulent check on a hotel had been
quashed, is the record of Henry M. Wil-
son, alias Mortimer, of New London,
N. H.

Arrived in arm with the woman, who
since his arrest in this city while on
their honeymoon has remained constant
and has cheered him up by frequent let-
ters, Wilson walked out of the City hall
a free man.

In 1908, just before he left for Cedar
Rapids with his bride, who was the
divorced wife of the Rev. Frederick
Webb of New London, Wilson paid for
a suite of rooms at the St. James ho-
tel with a forged check for \$300, signed
with the name of Curtis Guild, who
was governor of Massachusetts. Wil-
son had been employed as a stenographer
by the Ocean Steamship company of
Boston.

Wilson came here after his marriage
in Boston and went to Cedar Rapids,
where he spent two weeks before go-
ing to San Francisco. There he was
arrested. He was brought back here
for the check incident and was sentenced
to four years in prison by Justice Wil-
son, who afterward commuted the sen-
tence to 3½ years.

Wilson is said to have been an ex-
cellent prisoner. For the past two years
he served as a messenger.

While in prison his wife's letters have
been his main comfort.

A Physician's Report on Tuberculosis Medicine

"Have used Eckman's Alternative in
several cases of tubercular glands of the
neck, with excellent results every time.
In one case it cost me \$50, for the girl
was put on it only until she could ar-
range to be operated, and in a short
time an operation was not needed. I
suppose your records are just as fine as
of old. You know my faith in it."

Eckman's Alternative is effective in
other forms. Read what Mrs. Garvin
says:—
Gentlemen: "I have gained twenty-two
pounds since last February and my baby
is in perfect health. She is now four
months old. I have been waiting since
she was born to see how I would get
along. I am now doing all my work,
have been ever since she was four weeks
old, and I am steadily gaining. I do
not cough or raise anything at all. I
believe my lung trouble cured."
(Signed Affidavit) Mrs. M. H. Garvin.
Note—Mrs. Garvin is the mother of
seven children.

Eckman's Alternative cures Bronchitis,
Asthma, Hay Fever, Throat and Lung
Affections. Ask for booklet of cured cases
and write to the Eckman Laboratory,
Philadelphia, Pa., for additional evidence.

VETO BILL IGNORED

Lord Lansdowne's Reform
Scheme

ADOPTED BY THE LORDS

Resolutions Sent to House of Commons.
Lords Adjourns Until Monday, When
Dissolution of Parliament
Will Take Place.

London, Nov. 25.—The House of Lords
last night without a division adopted
the resolution of Lord Lansdowne, the
opposition leader of the House of Lords,
and decided to send them, together with
Lord Roseberry's plans for the reforma-
tion of the membership of the Lords, to
the House of Commons.

The upper chamber then adjourned un-
til Monday, when dissolution of Parlia-
ment will take place. Thus the govern-
ment's veto bill has been ignored by the
House of Lords.

A noticeable feature of the debate has
been the number of liberal peers who
supported Lord Lansdowne's scheme and
opposed the government's veto bill.

ON CANADIAN RECIPROCITY.

Sir Richard Cartwright Favors Closer Re-
lations with United States.

Ottawa, Nov. 25.—A statement on the
relations between Canada and the United
States was made in Parliament Wednes-
day by Sir Richard Cartwright, minister
of trade and commerce, and government
leader of the Senate. Sir Richard said
nothing could have been more courteous
than the conduct of the president of the
United States in the present reciprocity
negotiations. It was an unexampled
thing to find the president of a great
republic coming halfway from Washing-
ton to meet the Canadian finance minis-
ter, he said, and it was eminently consid-
erate on the part of the American ad-
ministration to send their commissioners
to Ottawa to discuss amicably the best
way in which freer reciprocal relations
could be brought about between Canada
and the United States.

"There are more considerations in this
matter than mere pounds, shillings and
pence," continued Sir Richard. "I have
always been an advocate of Canada mak-
ing herself valuable to the empire by pro-
moting friendly relations between our-
selves and the people of the United
States. Others may have a different
view, but my opinion is that no one
thing can be done by Canada which will
be one-quarter as great a service to the
British empire as promoting in every
way equitable and friendly relations be-
tween the two Anglo-Saxon powers. And
I will go further and say that if there
is one thing more than another calcu-
lated to bring about something like a
condition of general disarmament, it
would be an alliance between these two
great nations." Sir Richard said the
government had no intention of sacrific-
ing Canadian interests in the negotia-
tions, and its commissioners would ob-
tain a reasonable pro quo for anything
granted to the United States. Sir Rich-
ard regarded the award of The Hague
tribunal as a harbinger of what he hoped
yet to see, the establishment of thor-
oughly cordial relations between Canada
and the United States.

New Methods in Shoemaking That Enable You to Get Better Shoes for Less Money

Like many other necessities of life the cost of shoes has gone up
steadily—and, instead of improved quality, you have been getting
poorer shoes, because most shoemakers have been obliged to use
adulterated trust-tanned leather.

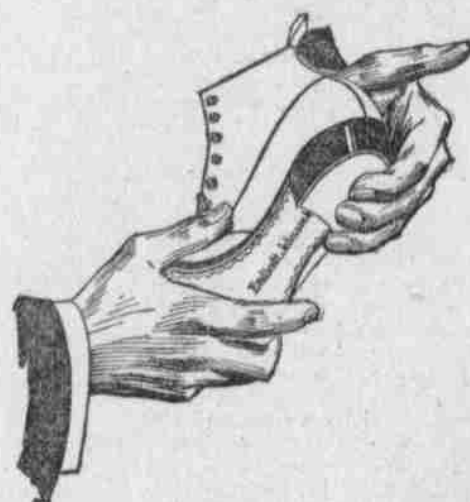

Endicott, Johnson & Co. are the
only shoe concern in the United States
who control the tanning of their leather.
They buy hides in the open markets of
the world and tan all the leather they use—
every batch of hides with an eye to a definite
type of shoe and kind of service.

They make their shoes complete—sell direct
to your home shoe dealer. They operate and
sell independent of all trusts and middlemen—
save you 50c. to \$1.00 on every pair of shoes and
give you leather you simply cannot get in any
other shoe made.

Their street and business shoe is the END-
WELL line, selling at \$3.00, \$3.50 and \$4.00.

ENDWELL shoes come in Two Hundred Styles—modish and up to the minute. Endicott,
Johnson & Co. employ the finest shoe designers in the trade. Endicott-Johnson leather "works in"
well—makes a handsome shoe that holds its shape, finish and comfort.

It will pay you to look for this name—you will find it stamped on every shoe—

ENDWELL

More than half the shoe dealers in the United States are handling Endicott-Johnson shoes. Always
ask for them and look for the name stamped on the sole. If you have any difficulty finding what
you want, write Endicott, Johnson & Co., Endicott, N. Y., and receive detailed information and list
of dealers by return mail.

FACTS ABOUT ALASKA GOLD.

As They Appear Through the Assay
Office at Seattle.

The latest report of the assay office
in this city shows that since July 15,
1898, when the office was opened for
business, it has purchased \$200,000,000
in gold, all from points of primary pro-
duction in the Pacific northwest. In-
cidentally it may be stated that fully
one-half of this amount of gold has
been paid out in Seattle, either in pur-
chase of supplies for Alaska or in in-
vestments made here by those who have
accumulated fortunes in the North.
This is what Seattle has received directly
from the gold fields of Alaska.

For the present year it appears that
the receipts of the assay office have been
\$10,507,221, of which \$9,309,109 was from
the gold fields of Alaska. This is but
a portion of the output of Alaska, how-
ever, for the owners of several large
properties there ship their gold to San
Francisco, either to the mint direct or
to the Selby smelter for reduction. The
showing is sufficiently good, however,
of the great wealth which Alaska con-
tinues to pour out year by year.

One item in the showing of more than
passing interest is that covering the re-
turns of the Iditarod camp about which
so many conflicting stories have been
told. This new camp, which is largely
tied up by locations made under power
of attorney, this year, the first in its
existence, turned into the assay office
in Seattle gold to the amount of \$787,-
497, an amount out of all proportion
greater than was expected. Such a

showing, considering all of the adverse
conditions, is calculated to inspire con-
fidence in the claims of those now in
the district that the next year's show-
ing from the camp will prove it to be
a fair rival to the Tanana.

The Nome district, according to the
figures of the assay office, contributed
\$3,576,584 to the total receipts of the
office for the year. Nome may have
seen its best days, as is generally be-
lieved, but it still is a great producer
of wealth, and promises to be so for
many years in the future.—Seattle Post-
Intelligencer.

SCHENK PLEAS REFUSED.

Defense in Alleged Poisoning Case Loses
Opening Skirmish.

Wheeling, W. Va., Nov. 25.—Six spe-
cial pleas filed by attorneys for Mrs.
Laura Farnsworth Schenk, charged with
attempting to poison her husband, John
O. Schenk, were refused in criminal court
Wednesday, Judge L. S. Jordan sustain-
ing the motion of prosecuting Attorney
J. B. Handlan to refuse the pleas on the
ground that they did not constitute a
meritorious defense at law. In the mat-
ter which they asked to have filed, coun-
sel for the defense averred that the spe-
cial grand jury was illegal, not being
drawn in accordance with the state code;
that the summons by the clerk of the
court should have been issued 20 days
before the calling of the special jury;
that but two days instead of three had
elapsed before the session, after the sum-
mons for the jurors had been issued by
the sheriff, and other technicalities, in-
cluding the jurisdiction of the court in
calling a special grand jury while the
regular term of court is being held. The
defense announced that demurrers would
be filed, and the state insisted upon
speedy arguments upon the demurrers.
The date for the arguments was set for
Saturday.

Crawford Ranges

few others would be sold

In the saving of time, trouble and labor and in superior
cooking ability, no other range can compare with them.

The Single Damper (patented)

the range does the rest.

The Two Hods in the base (pat-

ing feature. One Hod for ashes,
instead of the old, clumsy ash pan;
the other Hod for coal.

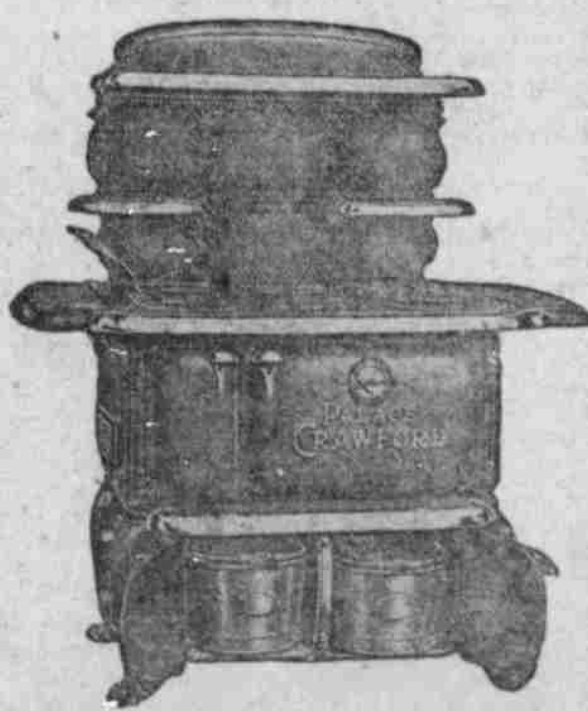

The Oven with its cup-joint flues
